

Anti-theft roll container - walls all-around - galvanised - red

Product specifications

Uitwendig (LxBxH)	724 x 815 x 1820 mm
Inwendig (LxBxH)	665 x 750 x 1585 mm
Material	HDPE
Article number	52.S720.AD.4
Weight (kg)	56 kg
Color	Red
Bottom	Perforated

Properties

Roll container for theft-sensitive items.

The door of the anti-theft container can be locked and secured with a padlock (not included as standard).

The door is hinged and equipped with a metal labeling field.

The container is equipped with 2 fixed and 2 swivel wheels in a galvanized design and plastic wheels Ø 125 mm with non-marking PU treads.

The side panels are inserted into the base plate and then secured with a clamp. The clamps are subsequently tightened with a screw.

The back walls and the roof are all secured to the side panels with plastic clamps.

For other wheel configurations (braked - solid nylon - different wheel diameter) consult our product specialists.

Description

Anti-theft roll container (724 x 815 x H 1795 mm) with a red plastic base. Comprised of a food-grade red plastic base panel (steel reinforced) and a closed steel structure. The structure consists of two side walls, a back wall, a roof, and a hinged door. The door of the anti-theft container can be locked and secured with a padlock (not included as standard). The entire structure is galvanized. The red anti-theft roll container is equipped with 2 fixed and 2 swivel wheels in a galvanized design with plastic wheels Ø 125 mm with PU treads. It has particularly smooth-running wheels. This commonly used plastic roll container is suitable for theft-sensitive products. Thanks to the red anti-theft roll container, it prevents valuable goods from being stolen.
