Properties

Suitable for use in basket transport machines with transport hooks

The basket is lowered on one side; trays may stick out on this side

The insert rack is suitable for four meal cassettes, GN dishes or serving trays

The basket (50.IR.4) is provided with a separate stainless steel insert rack

Description

This dishwashing basket, with dimensions of 500 x 500 x H 200 mm, offers a versatile solution for efficiently cleaning meal trays or trays up to a maximum depth of 75 mm. The included removable stainless steel insert rack provides space for 4 of these items, keeping them securely in place during rinsing.

What makes this basket truly convenient is the lowered side on one end. This allows trays and cassettes to protrude on this side, making them easy to place and remove without the risk of tipping or jamming.

Additionally, this basket is designed with usability and versatility in mind. It is specifically suitable for use in basket transport machines with transport hooks, allowing it to seamlessly integrate into existing operational processes and workflows.
