Properties

With a 1" outlet provision on one short and one long side

Pallet boxes with wheels remain stackable together

Manufactured with folding flap, dim. 740 x 315 mm, with snap-slide locks, may still be operated when stacked

With convex, projecting walls for extra internal volume

Manufactured as standard with four galvanised Ø 125 mm swivel castors with non-marking rubber tread

Description

BIG BOX plastic pallet box with flap, on wheels (1200 x 800 x H 915 mm - 535 liters). Food-grade pallet box on four swivel wheels with closed side walls, reinforced bottom, and a hinged loading flap on one long side. The pallet box is equipped with a 1" and 2" outlet provision on both one short and one long side. The BIG BOX pallet box has convex, outward-facing wall panels for optimal volume of the container. This results in up to 10% volume gain compared to conventional pallet boxes. The hinged loading flap reduces the lifting threshold, simplifying the loading and unloading of the pallet box. A mobile version increases efficiency and provides a flexible workplace layout.
