Description

Plastic bucket Ø 380 x H420 mm made of regenerated material, meaning recycled plastic. The bucket has a capacity of 30 liters. The heavy-duty bucket is made of thick-walled plastic, has a sturdy handle in galvanized design, and features a bottom rim to prevent abrasion. Suitable for use in freezing environments. With hygienic, smooth inner walls, making it easy to clean. Temperature resistance from -30°C to +70°C. The plastic bucket is suitable for professional and long-term use, and is used, among other things, as a mixing bucket for floor repairs. With volume indication on the inner wall.
