Description

Red plastic case with black insert trays. The red case has the Euro standard size of 400 x 300 mm and a height of 133 mm. The case consists of a red stackable container, a red hinged lid with two snap-slide closures and foam in the lid, a front suitcase handle, and black insert trays with a customizable layout. The foam in the lid ensures that the insert trays are securely sealed during transport with the lid closed. This prevents the contents from spilling into another insert tray, making the case highly suitable for safe storage and transportation of parts and small items. The plastic case can also be stacked with all other Euro standard cases and stackable containers.
