Description

Pallet box type CB1 measuring 1200 x 800 mm, equipped with hygienically smooth inner walls. The box is highly suitable for use in the food industry. CB1 pallet boxes stack perfectly with similar boxes, effortlessly integrating into an existing pool of pallet boxes. The CB1 is manufactured in one piece with three molded skids, minimizing breakage at these sensitive points. The CB1 pallet box is stable, impact-resistant, and lightweight; nearly 5 kilograms lighter than comparable heavy-duty boxes. Made of high-quality foamed HDPE plastic, the CB1 boasts extremely high impact resistance. The lower wall panels of the pallet box are reinforced to prevent damage from forklift collisions. Additionally, the blue CB1 can easily be equipped with transponders for tracking and tracing of the box and its contents.
