Description

Pallet box type CB1 in dimensions 1200 x 800 mm, equipped with hygienically smooth inner walls. The box is highly suitable for use in the food industry. CB1 pallet boxes are perfectly stackable with similar boxes and can therefore effortlessly integrate into an existing pool of pallet boxes. The CB1 is produced in one piece with three molded runners. Breakage at these sensitive points is thus minimized. The CB1 pallet box is stable, impact-resistant, and has a low weight; almost 5 kilos lighter than comparable heavy-duty boxes. The pallet box is made of high-quality foamed HDPE plastic. As a result, the CB1 has extremely high impact resistance. The bottom wall panels of the pallet box are extra reinforced to prevent collision damage from forklifts. Moreover, the blue CB1 can easily be equipped with transponders for tracking & tracing of the box and cargo.
