Description

Palletbox type CB1 measuring 1200 x 800 mm, equipped with hygienically smooth inner walls. The grey box is highly suitable for use in the food industry. CB1 pallet boxes stack perfectly with similar boxes, allowing them to seamlessly integrate into an existing pool of pallet boxes. The CB1 is manufactured in one piece with three molded runners. Breakage at these sensitive points is thus minimized. The CB1 pallet box is stable, impact-resistant, and has a low weight; almost 5 kilograms lighter than comparable heavy-duty boxes. The pallet box is made of high-quality foamed HDPE plastic, giving the CB1 extremely high impact resistance. The bottom wall panels of the pallet box are reinforced to prevent collision damage from forklifts. Additionally, the grey CB1 can be easily equipped with transponders for tracking and tracing of the box and cargo.
