CB3 High plastic palletbox - 1200 x 1000 mm - with funnel base and slide valve - on 7 feet

Product specifications

Weight (kg)	57 kg
External dimensions (L x W x H)	1200 x 1000 x 1140 mm
Temperature range	-30°C to +40°C
Capacity	850 liter
Color	Grey
Material	HDPE
Bottom	Closed, reinforced with central bottom discharge
Sidewalls	Closed
Max. load capacity per box	1000 kg
Max. static stacking load	4000 kg
Max. dynamic stacking load	1200 kg
Internal dimensions (L x W x H)	1108 x 897 x 960 mm

Properties

Capacity: 850 liters

Material: Plastic

Base: Funnel base with a tapered hopper

Opening: Central opening of 120x120 mm, adjustable

Slide Valve: Manually operated from the short side for controlled release of contents

Application: Ideal for dry bulk goods such as granules, seeds, grain, dry animal feeds, pellets, and other small components

Design: Smooth, funnel-shaped interior to promote easy product flow

Angle: Angled base at 35 degrees, facilitates easy emptying without the need to tilt the box

Food Safety: Suitable for use with food products

Limitations: Not suitable for liquids and moist products

Load Capacity: Maximum 1000 kg per box

Description

The CB3 High pallet box with a funnel bottom measures 1200 x 1000 x 1140 mm and has a capacity of 850 liters. This extra tall plastic pallet box features an outlet at the bottom, centrally located in the base. The base of the box tapers and is equipped with an adjustable opening of 120x120 mm. This opening can be manually closed with a slide valve operated from the short side of the box. The interior of the CB3 High box is smooth and funnel-shaped, ideal for the controlled dispensing of dry bulk goods such as granules, seeds, grain, dry animal feed, pellets, and other small components. The base of the box is angled at 35 degrees, allowing the contents to flow out easily when the slide valve is opened. This design eliminates the need for tilting or dumping the box. This container is also suitable for use with food products. However, it is important to note that the pallet box is not suitable for liquids and moist products unless a plastic inliner is used. The maximum load capacity of the box is 1000 kg.
