Bottom Closed, smooth

Load capacity (kg) 20

Lid containers can also be stacked with lids.

Containers with lids have a removable, foldable lid.

Stacking containers with a foldable lid and 2 snap-slide fasteners.

Description

The 600 x 400 x H190 mm stacking bin with lid is a Euro-standard stackable container equipped with an orange hinged lid with snap-slide closures. The lid container has a smooth, closed bottom and closed side walls. The plastic lid is removable in the open position. With the two snap-slide closures, the lid is easy to open. The lockable lid prevents the cargo from being lost, damaged, or contaminated during transport. Due to the standardized dimensions, the lid container is stackable with other Euro-containers, both with and without lids. Additionally, the lid container can be perfectly combined with standardized pallets, racks, and roll containers without loss of space. We supply foam inserts, seals, and label holders as accessories for the lid containers.
