Distribution bins are nestable and lid-stackable.

The distribution bins are provided with textured areas on the lid for stickers.

With bumper surfaces to prevent bins being displaced on roller tracks.

Distribution bins: space saving up to 65% in nested condition.

The nearly straight walls of the distribution bin ensure maximum volume.

Distribution bins have integrated label holders on both short sides.

Description

Fully enclosed distribution crate sized 400 x 300 mm. Made of food-grade plastic. The lid consists of two hinged halves that perfectly interlock. The distribution crate is lid-stackable and nestable when the lid is open. Substantial space-saving is achieved during return transport and empty storage of nested distribution crates. The distribution crate is multi-sealable and highly suitable for storage and transportation of valuable and confidential products.
