Distribution bins are nestable and lid-stackable.

The distribution bins are provided with textured areas on the lid for stickers.

With bumper surfaces to prevent bins being displaced on roller tracks.

Distribution bins: space saving up to 65% in nested condition.

The nearly straight walls of the distribution bin ensure maximum volume.

Distribution bins have integrated label holders on both short sides.

Description

Distribution bin sized 400 x 300 mm made of food-grade plastic. The distribution bin features closed walls, a sealed bottom, and solid handles. The lid consists of two hinged lid halves that fit perfectly together. The distribution bin is lid-stackable and nestable when the lid is open. Considerable space savings are achieved during return transport and empty storage of nested distribution bins. The distribution bin can be sealed multiple times and is highly suitable for storing and transporting valuable and confidential products, as well as for filing folders.
