Divider for stacking bins - 1150 x 120 mm

Product specifications Properties

Uitwendig (LxBxH) 1150 x 5 x 120 mm

Divider for stackable bins with a height of 120 mm - for creating customized compartmentalization.

Material Mixed recycled

Article number 99.HMM120.115

Weight (kg) 0,52 kg

Description

Divider for stackable bins (length 1150 x height 120 mm). These dividers provide optimal compartmentalization for stackable containers. The divider inserts are delivered in a length of 1150 mm and need to be cut to size individually. The smallest compartment size achievable with these dividers is 16 x 16 mm. From this size, the compartments can be expanded in increments of 5 mm using the dividers. The compartmentalizations can be easily interlocked, allowing for a customized compartmentalization in the stackable container.
