## Description

Divider for stacking bins (1150 x 180 mm) used to create compartments within stacking bins. The divider can be custom cut to size, fitting both lengthwise and widthwise within a stacking bin. Multiple dividers can be easily interlocked to create a suitable compartmentalization. The smallest compartment size is 16 x 16 mm, expandable in increments of 5 mm. This divider system is also known as a divider strip or divider comb. It's also available in heights of 120 or 150 mm.
