Bedrukking mogelijk

Euro pallet - CR1 - 1200 x 800 mm (without rims - with reinforced profiles)

Product specifications

Uitwendig (LxBxH)	1200 x 800 x 160 mm
Dynamic load capacity	1750 kg kg
Material	HDPE
Article number	83230801
Weight (kg)	19 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Static load capacity	7500 kg kg
Load capacity in racks	1750 kg

Properties

Europallet type CR1 (1200 x 800 x H 160 mm)

Suitable for use with food

Equipped with reinforcement profiles

3 longitudinal pallet runners

Closed blocks on the underside

Open pallet runners (ribbed)

No raised edges around

Anti-slip strips on the pallet deck

Additionally, it has 3 integrated reinforcement profiles in the pallet deck

Cutouts in the pallet for securing straps to prevent shifting

Static load capacity of 7500 kg

Dynamic load capacity of 1750 kg

Can carry 1750 kg in pallet racking

Description

The CR1 pallet from Transoplast is an innovative industrial pallet that meets various logistical needs. This pallet has no edges and features three integrated reinforcement profiles, making it an efficient solution for various transportation and storage applications. By lacking raised edges, this pallet prevents damage to goods during transport and simplifies the loading and unloading processes. The integrated reinforcement profiles provide extra stability and durability, enabling the pallet to withstand heavy loads and impacts. The smooth surface and absence of edges make the CR1 pallet easy to clean and maintain. Designed according to high-quality and durability standards, it is suitable for various logistical environments and industries.

With known load capacities of up to 1750 kg dynamically, 7500 kg statically, and in pallet racking, the CR1 pallet without edges and with integrated reinforcement profiles meets the requirements for efficient logistical operations while ensuring durability and user convenience
