

Euro pallet - D1 - 1200 x 800 mm (with rims)

Product specifications

Uitwendig (LxBxH)	1200 x 800 x 150 mm
Dynamic load capacity	1000 kg
Material	HDPE
Article number	83360701
Weight (kg)	12 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Brown
Static load capacity	5000 kg
Edge height	7 mm
Load capacity in racks	400

Properties

High load capacity, upgradable to 1250 kg in pallet racks using reinforcement profiles in the deck, even later on (consult our product specialists).

RFID technology can be easily integrated into the pallet, even afterwards. The integrated holder for RFID tags provides durable protection against external influences.

Pallet runners of the D1 are chamfered on both sides.

Raised edges all around the D1 prevent sliding of the load and sliding of empty pallets.

D1 is extra strong due to the angled connection of the pallet runners with the blocks.

Breakage at these sensitive points is thus reduced to a minimum.

Description

Plastic Europallet D1 (1200 x 800 x H 150 mm) - suitable for foodstuffs. With three longitudinal runners. The underside of the pallet feet is open, the underside of the runners is ribbed. The plastic Europallet is equipped with a surrounding safety edge (7 mm). Static load capacity 5000 kg, dynamic 1000 kg, and in pallet racks 400 kg. The load capacity in pallet racks can be increased to 1250 kg with reinforcement profiles; even afterwards. This allows the plastic pallet to cover a very wide range of applications.
