

Euro pallet - H1 ECO - 1200 x 800 mm (with rims and closed runners)

Product specifications

Weight (kg)	18 kg
External dimensions (L x W x H)	1200 x 800 x 160 mm
Temperature range	-10°C, briefly up to +90°C
Color	Black
Material	Mixed recycled
Static load capacity	5000 kg
Edge height	7 mm
Dynamic load capacity	1250 kg
Load capacity in racks	800 kg

Properties

The H2 pallet (800 x 600 mm) centres on the H1 pallet

Raised rims around the H1 prevent the load sliding off and mutual sliding of empty pallets

H1 is extra strong due to oblique connection between the runners and the chocks

Description

Plastic pallet measuring 1200 x 800 mm with a height of 160 mm. This heavy-duty H1 pallet features welded pallet runners and blocks, preventing dirt from entering. The H1 has a fixed tare weight of 18 kg, making it suitable for use in automated systems, for accurately weighing the load, and for interchanging within a pooling system. The vulnerable parts of the Euro H1 pallet are reinforced. The H1 has extra heavy-duty runners and a reinforced, angled transition from the pallet runners to the blocks, minimizing the risk of breakage. The Euro pallet has a temperature resistance from -30°C to +40°C / briefly up to +90°C and is easy to clean. H1 Euro pallets have a long lifespan, even under intensive use.
