Properties

Equipped with 3 pallet runners longitudinally.

Low height of 120 mm.

Made of ECO material: suitable for packaged food.

Equipped with raised edges of 7 mm on the pallet deck.

The raised edges prevent sliding of the cargo and sliding of empty pallets among themselves.

Available on request without edges or with 12 mm edges along the pallet deck.

Each corner block has an integrated facility for securing stretch film. This prevents slipping and creeping up of shrink wrap.

Description

Euro pallet type SL1 (1200 x 800 x H 120 mm) in ECO regranulate. Equipped with 3 pallet runners longitudinally. A lightweight pallet with a low height of 120 mm. With raised edges of 7 mm on the pallet deck. Static load capacity is 2000 kg and dynamic load capacity is 1000 kg. There is an opening in the corner block on both long sides for easy securing of stretch film. Serrated edges on all 4 corners prevent the film from slipping. The SL1 is suitable for specific purposes where a low height is required. For example, as a spacer in storage and distribution of goods. The SL1 is available on request without edges or with 12 mm edges along the pallet deck.
