Handles Open

Sidewalls Closed

Material HDPE

Article number 3625.750.512

Weight (kg) 2,6 kg

Temperature range -30°C to +80°C

Color Grey

Bottom Closed, reinforced

Description

The fully enclosed Euronorm stacking container with reinforced bottom provides a reliable solution for various storage needs. With dimensions of 600 x 400 x 260 mm and a reinforced bottom, this stacking container is ideal for safely storing and transporting various goods.

The closed design of the container ensures complete protection of the contents, making it an excellent choice for situations where extra safety and protection are required. The reinforced bottom increases the durability of the container and provides stability, even under heavy loads.

Thanks to the standardized Euronorm format, this container is compatible with various logistics systems and seamlessly fits into existing storage solutions. This makes it a versatile choice for use in warehouses, distribution centers, and production facilities.
