Euronorm stacking bin - 600 x 400 x H 85 mm (smooth base)

Product specifications Properties

Uitwendig (LxBxH)	600 x 400 x 85 mm
Capacity	16 liter
Handles	Closed
Sidewalls	Closed
Material	HDPE
Article number	3648.005.102
Weight (kg)	1,6 kg
Temperature range	-30°C to +80°C
Color	White
Bottom	Closed, smooth

Dimensions: 600 x 400 x H 85 mm

Capacity: 16 liters

Material: Plastic

Heavy-duty construction for extra strength and durability

Suitable for use with food

Closed sidewalls and closed, smooth bottom for optimal protection of contents

Description

The heavy-duty plastic stacking crate Euronorm, measuring 600 x 400 x H 85 mm and with a capacity of 16 liters, is a reliable choice for various applications. This natural white crate is specially designed for use in demanding environments and meets all requirements for food safety. With closed sidewalls and a closed, smooth bottom, this crate provides optimal protection for its contents, ensuring safe and hygienic storage and transportation of food.

The heavy-duty construction of the stacking crate provides extra strength and durability, making it resistant to intensive use and heavy loads. This makes it suitable for industrial applications, warehouses, distribution centers, and other demanding environments where robust storage solutions are needed.

Thanks to the Euronorm format of the crate, it is also perfectly compatible with other Euro crates, pallets, and transport equipment that comply with this standard. This allows the stacking crate to be efficiently integrated into existing storage and logistics systems. With the heavy-duty plastic stacking crate Euronorm, you are assured of a high-quality and durable solution for all your storage needs.
