

Fillet box 10 kg - with drain holes

Product specifications

Uitwendig (LxBxH)	600 x 400 x 125 mm
Capacity	15 liter liter
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	83630300
Weight (kg)	1 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Blue
Bottom	Sloping base with four drain holes and sideways outlet in top rim

Properties

Filleting crates are stackable and nestable.

The nesting principle saves up to 70% of space.

Features a domed bottom construction with 4 drainage holes and lateral discharge in the top edge.

Sturdy design for trouble-free and long-lasting use.

Hygienic and easy to clean.

Description

Filleting crate with drainage system in Euro standard size of 600 x 400 mm and a height of 125 mm. The drainage construction in the top edge and base ensures optimal drainage of drippings and slime, preventing them from reaching the fish crate below. Filleting crates are stackable and nestable. Empty filleting crates can be nested, saving up to 70% of space. The filleting crate has a capacity of 15 liters and is suitable for loading 10 kg of fish. Due to the Euro standard sizing, these filleting crates can be efficiently combined with plastic pallets, bases, and roll containers without any loss of space.
