

Fillet box 7 kg - with drain holes

Product specifications

Uitwendig (LxBxH)	500 x 400 x 110 mm
Capacity	60 liter liter
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	83620300
Weight (kg)	3,8 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Blue
Bottom	Sloping base with four drain holes and sideways outlet in top rim

Properties

Filleting crates are stackable and nestable.

The nesting principle saves up to 70% of space.

Features a domed bottom construction with 4 drainage holes and lateral discharge in the top edge.

Sturdy design for trouble-free and long-lasting use.

Hygienic and easy to clean.

Description

Stack-nestable filleting crate sized at 500 x 400 mm with a height of 110 mm. The filleting crate is equipped with a drainage system. Drippings and slime are efficiently drained through the drainage holes in the four corners of the base, preventing these substances from reaching the crate below. This ensures the quality, color, and freshness of the fish. Empty filleting crates can be nested to save space. This nesting principle saves up to 70% of space. The filleting crate has a capacity of 10 liters and is suitable for loading 7 kg of fish.
