

Fish box 40 kg - with drain holes - natural white

Product specifications

Uitwendig (LxBxH)	800 × 450 × 270 mm
Inwendig (LxBxH)	645 × 400 × 260 mm
Capacity	60 liter
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	81701010
Weight (kg)	3,8 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	White
Bottom	Sloping base with four drain holes and sidewards outlet in top rim
European Article Number	7424928043025

Properties

With sloped base construction and water drain outlet

Fish boxes are stackable and nestable

With arrow marking as visual aid to stacking and nesting

Up to 65% of space is saved by the fish boxes' nesting principle

Description

Fish crate (800 x 450 x H 270 mm - 40 kg / 60 liters), with drainage holes. Fish crates are stackable and nestable. A directional arrow marking on the top edge serves as a stacking-nesting aid. The nesting principle allows saving up to 65% of space. For tracking & tracing, a set of 868 MHz transponders can be installed in the top edge, even afterwards. Fish crates come with a closed roof base with drainage holes in the four corners. This allows drainage of leaked water, slime, etc. A construction in the top edge of the lower crate ensures lateral drainage, preventing leaked water, etc., from entering the (lower) crate. A particularly robust crate that is successfully used in many fish auctions.
