Description

This robust fish crate weighs 40 kg and measures 800 x 450 x H 270 mm. The design is carefully crafted without drainage holes, providing the perfect solution for safely transporting and storing various types of fish and seafood. The sturdy construction allows the crate to be used for various purposes, from fish wholesalers to fresh fish distribution. With its ample dimensions, this crate offers sufficient space and protection for the products without the risk of leakage or spills. Additionally, this crate is easily stackable and can be efficiently stored, saving valuable space in various storage environments.
