

Fish box 600 x 400 x H 225 mm - with drain holes

Product specifications

Weight (kg)	2,1 kg
External dimensions (L x W x H)	600 x 400 x 225 mm
Temperature range	-30°C to +40°C, briefly up to +90°C
Capacity	33 liter
Color	Blue
Material	HDPE
Bottom	Closed base with four drain holes and sideways outlet in top rim
Sidewalls	Closed
Handles	Open
Internal dimensions (L x W x H)	469 x 354 x 221 mm

Properties

Fish crates are stackable and nestable.

Space-saving due to nesting of empty fish crates.

The standard Euro size of 600 x 400 mm offers logistical advantages during transport and storage.

For corresponding mobile base and roll container, see "Accessories" and "Related Products."

Equipped with 4 drainage holes and lateral drainage in the upper edge.

Provided with textured fields on both short sides for sticker application.

Very robustly designed for a long lifespan.

Description

Fish crate (600 x 400 x H 225 mm - 33 liters), with drainage holes. Fish crates are stackable and nestable. The nesting principle saves a lot of space during empty storage and the return transport of empty fish crates. The Euro standard dimensions of this fish crate are designed for use in combination with mobile bases and roll cages. The fish crates feature a smooth and closed bottom with drainage holes in the four corners. Water, slime, etc., are drained through the drainage holes. A construction in the upper edge of the lower crate ensures lateral drainage, preventing water, etc., from entering the lower crate. Due to its compact size, this robust fish crate is highly suitable for wholesale to retail and hospitality fish distribution.
