Description

Plastic fish fillet bin / herring cleaning bin (620 x 420 x H 320 mm - 32 liters). Composed of a stack-nestable bin (32 liters) and a removable plastic fillet assembly. The stack-nestable base bin is smooth and easy to clean. The fillet assembly consists of a blue plastic worktop with an attached plastic rim. The plastic worktop has a waste inlet opening on the right rear side. The inlet opening of the fillet assembly (Ø 100 mm) can also be placed on the right front or in another position on the worktop. Our fish fillet bins can be found wherever quality products need to be prepared hygienically and efficiently.
