Description

Our plastic equipment cart (800 x 700 x H 1350 mm) is specially designed for storing swimming supplies. With this cart, you can efficiently and corrosion-free store your gear. The bottom of the cart is equipped with a 3 mm thick plastic insert plate, made of PE material in a natural white color. This insert plate provides a sturdy and stable surface to organize and protect your swimming equipment. With this convenient cart, you can easily store and transport all your swimming accessories in one place, keeping your pool environment neat and organized.
