Description

The base for the foldable pallet box with dimensions of 1200x800x185 mm is an essential component for the storage and transport of bulk products. Its space-saving design allows the side walls to be safely stored between the base and the lid when folded, reducing costs in reverse logistics when empty. The base is made of polypropylene (PP), fully recyclable and resistant to temperatures ranging from -10°C to 50°C. Suitable for use in logistics and bulk transport.
