Dimensions: 600 x 400 x H 233 mm with a capacity of 44 liters

Perforated side walls for ventilation

Closed bottom with drainage holes to remove moisture

4 open handles for easy lifting and carrying

Collapsible height of 50 mm, saving storage space when not in use

Stack height of only 40 mm, allowing efficient stacking

Description

Blue plastic collapsible crate in Euro norm format 600 x 400 mm with yellow handles. The blue collapsible crate is 233 mm high when unfolded. The crate is 50 mm high when folded. When stacked, the stacking height per folded crate is only 40 mm. This way, the blue collapsible crates achieve enormous space savings in empty storage and return transport. The crate is equipped with stable, perforated side walls and bottom, a label holder on the short sides, and open handles. The yellow handles of the easy-lock system, located directly under both handles, allow the side walls to unlock and fold easily. After unlocking, both short sides are folded first, followed by both long sides. The crate is made of food-grade plastic, making it suitable for applications with unpackaged food items. Thanks to the Euro norm dimensions, the crate can be perfectly combined with standardized mobile bases, pallets, and roll containers. The crate has a carrying capacity of 25 kilograms. The stack load is 200 kilograms. This means that you can stack filled collapsible crates up to a maximum of 8 high.
