

Glass crate BASIC - 600 x 400 x H 224 mm for 40 glasses - max. height 196 mm - max. Ø 65 mm

Product specifications

Uitwendig (LxBxH)	600 x 400 x 224 mm
Inwendig (LxBxH)	568 x 368 x 210 mm
Capacity	48.9 liter liter
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.122.5x8.UO
Weight (kg)	2,76 kg
Temperature range	-40°C to +70°C
Color	Grey
Bottom	Perforated, reinforced (base implementation no. 15)
European Article Number	7424901591574
Maximum glass height	196
Maximum Ø glass	65

Properties

Dimensions: 600 x 400 mm with a height of 224 mm.

Designed for 40 glasses.

Suitable for glasses with a maximum height of 196 mm.

Suitable for glasses with a maximum diameter of Ø 65 mm.

Ideal for storing, transporting, and cleaning glassware and tableware.

Contains compartmentalization to protect glasses individually.

Provides optimal support for glasses with a base due to compartmentalization.

The glass crate has perforated side walls and bottom for efficient cleaning.

Stackable and can be combined with other Euronorm stackable crates.

Can be stored and transported without space loss on standardized supports, roll containers, and pallets.

Description

Please pay attention before placing your order!

The dimensions of the glass determine the choice of crate. Measure the height of the glass and the diameter at its widest point. Plastic crate with compartmentalization for 40 glasses. The glass crate measures 600x400 mm and has a height of 224 mm. It is suitable for cleaning, storage, and transportation of glassware and dishes with a maximum glass height of 196 mm and a maximum Ø of 65 mm. The size and layout of the crate are determined by its contents. If the glass is taller than 196 mm or wider than Ø 65 mm, choose a different glass crate in this series. We are happy to advise you. The glass crate with double compartmentalization provides 40 individual spots for glasses. The glasses do not touch each other, ensuring optimal protection against scratches and breakage during cleaning, storage, and transportation. The glass crate has lower and upper compartmentalization, providing good support for glasses with a base. The glassware is fully cleaned inside the glass crate after washing. This is because the crate has coarsely perforated side walls and a bottom, allowing the rinse water and cleaning agent to easily reach the contents of the crate. The glass crates are stackable and can be perfectly combined with other plate racks and stackable crates with Euronorm dimensions. Moreover, the glass crates can be stored and transported without losing space on standardized supports, roll containers, and pallets. For more information, please contact our product advisor.
