

Glass crate BASIC - 600 x 400 x H 280 mm for 15 glasses - max. height 255 mm - max. Ø 106 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 280 mm
Inwendig (LxBxH)	568 × 368 × 271 mm
Capacity	57 liter liter
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.128.3x5.UO
Weight (kg)	2,92 kg
Temperature range	-40°C to +70°C
Color	Grey
Bottom	Perforated, reinforced
European Article Number	7424902012023
Maximum glass height	255
Maximum Ø glass	106

Properties

Glass dimensions are crucial for crate selection; measure the glass height and diameter at the widest point.

Glass crate measures 600x400 mm with a height of 280 mm designed for cleaning, storage, and transportation of glassware and dishes. Suitable for glasses with a maximum height of 255 mm and a maximum Ø of 106 mm. Glass size determines the most suitable crate; choose another crate in this series if the glass significantly deviates from these dimensions. Expert advice is available.

The crate features a double compartmentalization with 15 sections, offering 15 individual spots for glasses and cups. Double compartmentalization ensures optimal protection of the glass's most vulnerable part, the base, against breakage. Glasses do not touch each other during cleaning, storage, and transport due to the compartmentalization.

The glassware is completely clean after cleaning in the glass crate, thanks to the coarse perforated side walls and bottom, allowing easy access for rinse water and cleaning agents.

Euronorm glass crates are stackable and compatible with other plate bins and stackable crates with Euronorm measurements. They can be stored and transported without space loss on standardized supports, roll containers, and pallets.

Description

Please note before ordering!

The glass dimensions are decisive when choosing the crate. Measure the glass height and diameter at the widest point.

Glass crate 600x400 mm with a height of 280 mm for cleaning, storage, and transportation of glassware and tableware. This crate is suitable for glasses with a maximum glass height of 255 mm and a maximum Ø of 106 mm. The glass size determines the most suitable glass crate. If the glass is significantly lower than 255 mm or much narrower than Ø 106 mm, choose another glass crate in this series. We are happy to provide advice.

The glass crate is equipped with a double partition of 15 compartments, providing 15 individual spaces for glasses and cups. Thanks to the double compartment, the most vulnerable part of the glass, the base, is optimally protected against breakage. Due to the compartmentalization, the glasses do not touch each other during cleaning, storage, and transportation. The glassware is completely clean after washing in the glass crate. This is due to the coarse perforated side walls and bottom of the crate, allowing the rinse water and detergent easy access to the contents.

The Euronorm glass crates are stackable and combinable with other trays and stackable crates of Euronorm size. Moreover, the glass crates can be stored and transported without losing space on standardized bases, roll containers, and pallets. For more information, please contact our product advisors.
