# Half Euro pallet - CR2 - 800 x 600 mm (with rims - 3 runners)

## Product specifications

|                                  |                                     |
|----------------------------------|-------------------------------------|
| Weight (kg)                      | 7,5 kg                              |
| External dimensions ( L x W x H) | 800 x 605 x 160 mm                  |
| Temperature range                | -30°C to +40°C, briefly up to +90°C |
| Color                            | Grey                                |
| Material                         | HDPE                                |
| Static load capacity             | 2000 kg                             |
| Edge height                      | 7 mm                                |
| Dynamic load capacity            | 500 kg                              |

## Properties

Roll-in width of the CR2 on the short side: 555 mm

The CR2 runners are ribbed underneath

Raised rims around the CR2 prevent the load sliding off and mutual sliding of empty pallets

CR2 pallet may be rolled into on four sides, the short sides too

With cover profile that centres on the underside of the runners, against mutual sliding away of empty pallets

## Description

The Europallet of type CR2 (800 x 605 x H 160 mm), designed for food products, has been customized with specific features for enhanced functionality. The addition of three transverse pallet runners ensures superior stability and support. These pallet runners feature ribbed surfaces, contributing to better grip and load security.

Furthermore, the open underside of the blocks allows for efficient handling and stacking, while the ribbed design of the pallet runners increases friction and prevents shifting during transportation or storage.

This pallet is equipped with raised edges all around and a special decking profile, ensuring the accurate centering of empty pallets. With a static load capacity of 2000 kg and a dynamic load capacity of 500 kg, this pallet offers optimal versatility and durability for various logistics and goods distribution applications
