

Half Euro pallet - H2 - 800 x 600 mm (with rims)

Product specifications

Uitwendig (LxBxH)	800 x 600 x 160 mm
Dynamic load capacity	500 kg
Material	HDPE
Article number	83170801
Weight (kg)	9 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Static load capacity	2000 kg
Edge height	7 mm

Properties

Raised rims around the H2 prevent the load sliding off and mutual sliding of empty pallets

H2 pallet can only be rolled into on long side (two sides)

The H2 pallet centres mutually with the EURO H1 pallet (1200 x 800 mm)

The H2 runners are open underneath

Description

The half Euro pallet type H2 (800 x 600 x H 160 mm) is ideal for the safe transportation of foodstuffs. With its compact dimensions and robust design, this pallet is perfectly suited for various logistical applications. Equipped with two pallet runners transversely across the width, this pallet provides optimal stability during transport. The open bottom of the pallet runners facilitates the use of pallet jacks and forklifts.

The raised edges around the pallet ensure that loads remain securely in place during transport. Thanks to these edges, products can be stacked securely without the risk of shifting or damage. Additionally, the pallet deck is smooth and free of protrusions, making it easy to place and stabilize goods evenly.

With an impressive static load capacity of 2000 kg and a dynamic load capacity of 500 kg, this half Euro pallet offers a reliable solution for transporting heavy loads. Whether it's moving inventory in warehouses or distributing goods to different locations, this pallet ensures efficiency and safety.
