

Industrial pallet - CR3 - 1200 x 1000 mm (with rims - staalversterkt)

Product specifications

Uitwendig (LxBxH)	1200 x 1000 x 160 mm
Dynamic load capacity	1750 kg kg
Material	HDPE
Article number	83335851
Weight (kg)	23,5 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Static load capacity	7500 kg kg
Edge height	5 mm mm
Load capacity in racks	1400 kg

Properties

The CR3's anti-slip strips prevent loads sliding off and mutual sliding of empty pallets

Raised rims around the CR3 prevent the load sliding off and mutual sliding of empty pallets

CR3 with three runners lengthwise, underside of chocks and runners open (ribbed)

CR3 is extra strong due to oblique connection between the runners and the chocks

Description

The industrial block pallet type CR3 (dimensions 1200 x 1000 x H 160 mm) is a versatile and durable pallet, suitable for use in the food industry. This pallet is equipped with reinforcement profiles and is specifically designed for heavy loads and safe transport. The CR3 pallet features three longitudinal pallet runners, with open blocks and ribbed pallet runners on the underside for extra stability. The pallet has 5 mm raised edges around it to ensure that goods remain securely in place during transport. Additionally, the pallet has anti-slip strips on the deck to prevent loads from shifting.

The five integrated reinforcement profiles in the pallet deck contribute to the pallet's exceptional load capacity. The static load capacity is an impressive 7500 kg, while the dynamic load capacity is 1750 kg. In pallet racks, the CR3 pallet can handle a load of 1400 kg, making it ideal for various industrial applications where stability and safety are crucial.
