Properties

High load capacity that is upgradable to 1000 kg in pallet racks using reinforcing sections: on request

RFID technology is straightforward to integrate into the pallet, even later on. The RFID tag holder provides durable protection against external influences.

All openings in the pallet surface go right through so are easy to clean

D3 runners are chamfered on both edges.

Raised rims around the D3 prevent the load sliding off and mutual sliding of empty pallets

D3 is extra strong due to oblique connection between the runners and the chocks

Description
