Description

Foldable plastic pallet box, type MAGNUM, with perforated walls, bottom, and loading ramps. The pallet box measures 800 x 600 x 760 mm and has a capacity of 255 liters. When folded, the MAGNUM pallet box is only 307 mm high, resulting in a space saving of 60%. The pallet box has a hinged loading ramp on all four sides. Thanks to these loading ramps, the lifting threshold is lowered, simplifying loading and unloading. The pallet box is supported by two runners (on the 600 mm side).
