Product specifications

Uitwendig (LxBxH)	1200 x 1000 x 105 mm
Inwendig (LxBxH)	1140 x 940 x 105 mm
Material	PP
Article number	2538.000.626
Weight (kg)	2,5 kg
Temperature range	-10°C to +40°C
Color	Blue

Properties

Optiframe elevation frame for increasing the useful height of the MAGNUM Optimum by 105 mm. Max. 3 frames per box.

Description

The MAGNUM Optimum offers a practical solution for storage space, but sometimes you may need some extra height. By using an Optiframe, you can easily increase the useful height of the MAGNUM Optimum, providing more space for storage of goods or products.

The Optiframe is strategically placed between the bottom and the collapsible side walls. This creates a solid platform that allows you to safely and securely raise the pallet box without compromising stability. Additionally, this ensures that the MAGNUM Optimum remains easy to handle.

In terms of customization options, the MAGNUM Optimum can be equipped with up to three Optiframes. With each added frame, the height increases by 105 mm, allowing you to further optimize the space according to your specific needs.

Whether you need extra space for storage in a warehouse environment or for transporting large items, the MAGNUM Optimum with Optiframe offers a flexible and efficient solution that can be adapted to your changing needs.
