| Temperature range | -10°C to +40°C |
| Color | Grey |
| Bottom | Closed |
| Max. load capacity per box | 750 kg |
| Max. static stacking load | 3750 kg |

Properties

Collapsible pallet box with double-wall construction.

The walls are smooth on both the inside and outside, making them easy to clean.

Equipped with an Optiframe raised edge, increasing the usable height by 105 mm compared to the standard version.

The Optimum 1080 S collapsible pallet box has a bottom with 2 pallet runners and 2 legs.

When collapsed, it is 430 mm high, and when stacked, it is 400 mm high.

Collapsing achieves a volume reduction of up to 65%.

The lifting threshold is lowered by loading ramps in the walls.

Comes standard with one loading ramp on the long side: 840 x 385 mm (w x h) and one loading ramp on the short side: 575 x 385 mm (w x h).

Description

MAGNUM Optimum Box 1080 S collapsible pallet box (1200 x 1000 x H 1080 mm - 959 liters) with two hinged loading ramps (one on the long side and one on the short side). The collapsible pallet box has an Optiframe raised edge. This increases the usable height by 105 mm compared to the MAGNUM Optimum 975 S basic version. The pallet box has a closed bottom with drainage holes. The side walls are smooth and closed. When collapsed, the MAGNUM Optimum Box is only 295 mm high. This achieves a volume reduction of 65%. The reinforcing ribs in this pallet box are integrated into a double-wall construction. Due to the smooth sandwich walls, the MAGNUM Optimum is very stable and easy to clean. Parts of the MAGNUM Optimum - such as walls, pallet runners, legs, or flaps - are easy to replace and at low cost.
