MAGNUM Optimum 1210 S - foldable large container - 1200 x 1000 mm - with 2 Optiframe spacers and 2 drop doors

Product specifications

Weight (kg)	57 kg
External dimensions (L x W x H)	1200 x 1000 x 1210 mm
Temperature range	-10°C to +40°C
Capacity	1098 liter
Color	Grey
Material	PP
Bottom	Closed
Sidewalls	Closed, interior smooth, collapsible
Max. load capacity per box	750 kg
Max. static stacking load	3750 kg
Brand	Schoeller Allibert
Internal dimensions (L x W x H)	1140 x 940 x 1025 mm

Properties

Folding pallet box with double-wall construction.

Smooth walls on the inside and outside, easy to clean.

Equipped with two Optiframe raised edges, increasing the usable height by 210 mm compared to the standard version.

The Optimum 1210 S folding pallet box has a bottom with 2 pallet runners and 2 legs.

Folded height is 535 mm, in stacking 505 mm.

Folding achieves a volume reduction of up to 60%.

The lifting threshold is lowered by loading ramps in the walls.

Standard with one loading ramp on the long side: 840 x 385 mm (w x h) and one loading ramp on the short side: 575 x 385 mm (w x h).

Description

MAGNUM Optimum Box 1210 S folding pallet box (1200 x 1000 x H 1210 mm - 1098 liters) with two hinged loading ramps (one on the long side and one on the short side). The folding pallet box has two Optiframe raised edges. This increases the usable height by 210 mm compared to the standard MAGNUM Optimum 1000 S. The pallet box has a closed bottom with drainage holes. The side walls are smooth and closed. When folded, the MAGNUM Optimum Box is only 295 mm high. This achieves a volume reduction of 60%. The reinforcement ribs in this pallet box are integrated into a double-wall construction. Due to the smooth sandwich walls, the MAGNUM Optimum is very stable and easy to clean. Parts of the MAGNUM Optimum - such as walls, pallet runners, legs, or flaps - can be easily replaced at low cost.
