Nestable retention bin - drip tray (light)

9 liter - 350 x 330 x H 130 mm

Product specifications

Weight (kg) 0,44 kg

External dimensions (L x W x H) 350 x 330 x 130 mm

Temperature range -30°C to +80°C

Capacity 9 liter

Color Black

Material HDPE

Bottom Closed, smooth

Sidewalls Closed

Handles Closed

Properties

Nestable containment tray - drip tray (350 x 330 x H 130 mm - 9 liters)

Highly nestable, extremely space-saving

Closed side walls, bottom, and handles

Rounded corners and smooth walls

Description

The nestable containment tray - drip tray with dimensions of 350 x 330 x H 130 mm and a capacity of 9 liters is a cleverly designed solution that is exceptionally space-saving. Its unique feature is its ability to be stored very compactly due to the nestable design. This makes it ideal for situations where space efficiency is essential.

The containment tray is equipped with closed side walls, a sturdy bottom, and convenient handles, enhancing its usability and durability. Due to its robust construction, this tray is suitable for various applications, ranging from liquid storage to collecting leakages. Additionally, the rounded corners and smooth walls are not only aesthetic but also facilitate the cleaning and maintenance of the tray. This makes it easy to remove spills and residues, keeping the tray hygienic.

Whether it's industrial environments, workshops, warehouses, or household tasks, the nestable containment tray - drip tray offers a versatile and convenient solution. Its compact size combined with durability and functional features makes it a valuable addition in any setting where efficiency and space utilization are important.
