Color Red

Smooth, closed bottom frame, ensuring exceptional hygiene.

Wheels with sturdy wheel plate and stable 4-point attachment.

Wheel forks, axles, and fastening materials are galvanized.

Suitable for loading goods of varying sizes (buckets, boxes, etc.).

Description

Dolly / mobile plastic hygiene base (595 x 395 x H 210 mm) with a particularly robust grid frame. Hygienic design with a welded, closed bottom. The bottom is therefore smooth and without rib structure, ensuring optimal hygiene. Suitable for stacking containers with a base size of 600 x 400 mm or two pieces of 400 x 300 mm. Due to the grid frame, it is also suitable for non-standard sizes of containers or boxes and smaller cargo. The base is equipped with 4 galvanized swivel castors with nylon wheels Ø 100 mm with PU tread. Maximum load capacity 300 kg. Other wheel configurations with stainless steel wheel forks, brake wheels, different diameters, a different tread, etc., are of course possible. Ask our product specialists about the possibilities. An excellent dolly when high hygiene standards are required.
