

Plastic pallet - 1140HB6RR - 1140 x 1140 mm (6 runners)

Product specifications

Weight (kg)	24 kg
External dimensions (L x W x H)	1140 x 1140 x 165 mm
Color	Black
Material	Mixed recycled
Static load capacity	7500 kg
Edge height	5 mm
Dynamic load capacity	2000 kg
Load capacity in racks	1000 kg

Properties

Type: Plastic pallet 1140HB6RR

Dimensions: 1140 x 1140 x H 165 mm

Material: PE/PP blend-regenerated material

6 pallet runners for stability

5 mm raised edges for extra safety

Load capacity:

Static: 7500 kg

Dynamic: 2000 kg

In pallet racking: 1000 kg

Description

Introducing the versatile plastic pallet type 1140HB6RR, designed for optimal efficiency in material handling operations. Crafted from a durable PE/PP blend-regenerated material, this pallet boasts resilience and reliability, ensuring longevity even in demanding environments.

With dimensions of 1140 x 1140 x H 165 mm, it provides ample space for various goods while remaining compact enough to streamline storage and transportation processes. The inclusion of 6 pallet runners enhances stability and facilitates smooth movement across surfaces, while the 5 mm raised edges offer added security, preventing items from slipping during transit.

One of its key features lies in its impressive load-bearing capacity. In static conditions, this pallet can support up to 7500 kg, making it suitable for stacking goods in warehouses or storage facilities. When in motion, its dynamic load capacity reaches 2000 kg, ensuring safe transport of heavy loads. Even in pallet racking systems, where space optimization is paramount, it maintains a sturdy performance with a load capacity of 1000 kg.
