Description

The plastic pallet type 1140LRR (1140 x 1140 x H 150 mm) is an environmentally friendly choice, manufactured from regenerated material. With its durable construction, this pallet contributes to waste reduction and promotes a circular economy.

With 9 legs, this pallet offers excellent stability and support for various types of loads. The raised edges of 5 mm around the pallet ensure that the load remains securely in place during transport and storage, minimizing the risk of shifting or damage.

With an impressive static load capacity of 2500 kg and a dynamic load capacity of 1000 kg, this pallet is suitable for heavy and dynamic loads. Whether it's transporting bulk goods in warehouses or stacking products in distribution centers, this pallet offers reliable performance.
