

Plastic pallet - 1140M3RR - 1140 x 1140 mm (3 runners)

Product specifications

Weight (kg)	15 kg
External dimensions (L x W x H)	1140 x 1140 x 156 mm
Color	Black
Material	Recycled HDPE
Static load capacity	4000 kg
Edge height	5 mm
Dynamic load capacity	1000 kg
Load capacity in racks	250 kg

Properties

Plastic pallet type 1140M3RR

Dimensions: 1140 x 1140 x H 156 mm

Material: Regenerated material

Equipped with 3 longitudinal pallet runners

Raised edges of 5 mm

Load capacity:

Static: 4000 kg

Dynamic: 1000 kg

In pallet racking: 250 kg

Description

The Plastic pallet type 1140M3RR is a versatile and sustainable solution for the efficient and safe transportation and storage of goods. With dimensions of 1140 by 1140 by 156 millimeters, this pallet provides ample space and stability for various applications in diverse industries.

Made from regenerated material, this pallet contributes to a more sustainable supply chain by using recycled plastic. This not only has a positive impact on the environment but also ensures that the pallets are sturdy and reliable.

The pallet is designed with 3 longitudinal pallet runners, which provide easy access and manipulation with pallet jacks and forklifts. Additionally, the 5-millimeter-high raised edges are an additional safety measure to prevent goods from sliding off the pallet during transport.
