

Plastic pallet - 1140M6RR - 1140 x 1140 mm (6 runners)

Product specifications

Weight (kg)	16,5 kg
External dimensions (L x W x H)	1140 x 1140 x 156 mm
Color	Black
Material	Recycled HDPE
Static load capacity	4000 kg
Dynamic load capacity	1000 kg
Load capacity in racks	350 kg

Properties

Plastic pallet type 1140M6RR

Dimensions: 1140 x 1140 x H 156 mm

Material: Regenerated material

Equipped with 6 pallet runners

Raised edges of 5 mm

Load capacity:

Static: 4000 kg

Dynamic: 1000 kg

In pallet racking: 350 kg

Description

The Plastic pallet type 1140M6RR offers a robust and versatile solution for various logistical applications. With dimensions of 1140 by 1140 by 156 millimeters, this pallet provides ample space and stability for the transportation and storage of goods in various industries.

Manufactured from regenerated material, this pallet contributes to a more sustainable supply chain by using recycled plastic. This not only has a positive impact on the environment but also ensures that the pallets are sturdy and reliable.

The pallet is designed with 6 pallet runners, ensuring an even distribution of weight and easy handling with pallet jacks and forklifts.

The raised edges of 5 millimeters height serve as an additional safety measure to prevent goods from sliding off the pallet during transport.
