Description

The plastic pallet of type 1212HR6RR is a versatile and sustainable solution for various logistical applications. With dimensions of 1200 x 1200 x H 170 mm, this pallet provides ample space and stability for the safe transportation of goods. Manufactured from regenerated material, this pallet contributes to environmentally friendly logistical practices by using recycled raw materials.

The pallet is designed with 6 pallet runners, each with raised edges of 5 mm high. These raised edges help prevent shifting of loads during transportation, thereby increasing safety and minimizing damage to goods.
