Description

The plastic pallet of type 1212M3RR is a versatile and sustainable solution for various logistics applications. With dimensions of 1200 x 1200 x H 156 mm, this pallet provides ample space and stability for the safe transportation and storage of goods in various environments.

Manufactured from regenerated material, this pallet contributes to environmentally friendly logistics practices by using recycled raw materials, reducing the ecological footprint.

The pallet is equipped with 3 pallet runners lengthwise, each with raised edges of 5 mm high. These raised edges serve as an additional safety measure to prevent loads from shifting during transport, preserving the integrity of the goods.
