Description

Short plastic pallet wedge (460 x 120 x 60 mm) suitable for use with our H and CR plastic pallet series. The pallet wedge is inserted into the pallet deck and centered by means of centering lugs that secure into the open deck parts. Because each type of pallet has a different top deck layout, we provide a customized cone for each type of pallet. The cone is available for pallets in Euro format of type H1 and CR1, and in industrial (ISO) format of type H3, CR3, and CR3-5.
