

Stacking bin - 475 x 340 x H 220 mm

Product specifications

Weight (kg)	1,6 kg
External dimensions (L x W x H)	475 x 340 x 220 mm
Temperature range	-30°C to +40°C, briefly up to +90°C
Capacity	25 liter
Color	White
Material	HDPE
Bottom	Closed, smooth
Sidewalls	Closed
Handles	Closed
Internal dimensions (L x W x H)	410 x 300 x 215 mm

Properties

Stacking crate dimensions: 475 x 340 x H 220 mm, with a 25-liter capacity, available in white.

Made of plastic, featuring enclosed side walls and a smooth, closed bottom for secure containment.

Integrated handles positioned in the upper edge for easy handling and transportation.

Widely utilized in specialized applications within the food industry and pharmaceutical sector.

Specifically designed for storing and transporting sensitive items in these fields.

Its design meets the stringent hygiene and safety requirements of these sectors.

Valued for its adaptability and suitability for specialized purposes in food and pharmaceutical industries.

Description

The white stacking crate, measuring 475 x 340 x H 220 mm and with a capacity of 25 liters, is a versatile plastic container designed for specific purposes. It features enclosed side walls and a smooth, closed bottom, ensuring secure containment of items stored within. The integrated handles located at the upper edge make handling and transporting the crate easy and convenient.

This particular stacking crate finds extensive utilization in specialized environments such as the food industry and pharmaceutical sector. Its design and construction make it ideal for storing and transporting sensitive goods in these fields. The closed walls and smooth base maintain cleanliness and integrity, meeting the stringent requirements for hygiene and safety in these sectors.

Due to its durable build and functional design, this stacking crate serves as a reliable solution for various storage and transportation needs within these industries. Its adaptability and suitability for specialized applications make it an essential asset in ensuring the quality and integrity of items being stored or transported in the food and pharmaceutical sectors.
