Bottom Closed, reinforced

Dimensions: 600 x 400 x H 233 mm

Suitable for use with food

Smooth inner walls

Raised corners and lowered side walls for stackability

Reinforced, smooth bottom

Description

Black plastic stacking crate 600 x 400 x H 233 mm - food-safe. The stackable crate features smooth inner walls, raised corners, and lowered side walls. The bottom is smooth and reinforced. Due to their size and food-safe material, these crates are highly suitable for use as cultivation containers for insect farming. When stacked, these crates create a dark growing environment, as desired in insect farming. The raised corners ensure sufficient space between the crates for ventilation or feeding of the insects. The inner dimensions of the plastic crate are 568x368xH219/110 mm. The stackable insect farming crates are also available in blue.
